

SO CUTE

KOH-KOH

WHERE'S ITS
ARMS?

Furbrain

AWWWWW

LET'S PLAY!

IT'S ALIVE!

It's like a real pet that runs on batteries!

You'll be amazed how fast the Furbrain becomes part of your family. Feed it, play with it, love it! The Furbrain listens and learns. The more love you show it, the more life-like it becomes. With every interaction, you'll notice changes in personality and behavior that make your Furbrain truly unique. Caring for your Furbrain is simple and rewarding. Regular feeding keeps your creature happy and energized. Interactive play sessions strengthen the bond between you and your digital companion.

Furbrain speaks a language called Furbish, but it learns over time and soon you'll hear it saying "You're my best friend", "I love you", and "HHV{dah_no_lah}". As your Furbrain develops its language skills, you'll be delighted by its expanding vocabulary. The learning process is continuous, the more you interact, the more your Furbrain evolves. Each Furbrain develops its own distinct personality based on how you raise it and will reflect the care you invest.

**COMING
SOON!!!**

"My Furbrain is my best friend!" - Tommy, age 8

"Is it really listening to us..." - Mrs Edwards
